Lac La Ronge Indian Band
Land Code Update - November 2018

What is a Land Code?

The Lac La Ronge Indian Band has begun the process to develop its Land Code. This process will be completed over the next year.

A Land Code is a set of guidelines for how reserve lands and resources are controlled and managed. It is written by the First Nation and decreases Canada's management of our reserve lands. The final Land Code requires approval from the members of LLRIB.

Community Input Meetings

The Land Code Committee has completed the first draft of the Land Code and want to bring it to the community members, both on and off reserve, for review and input. This is a chance for everyone's voice to be heard.

There will be an information session followed by a question and answer period. Join for a meal, discussion and door prizes. The dates, times and locations are below.

LLRIB Land Code Community Input Meetings Details

Stanley Mission	Wednesday, Nov 14	1pm	Elder's Centre
Grandmother's Bay	Wednesday, Nov 14	6pm	Band Hall
Sucker River	Thursday, Nov15	1pm	Band Hall

Prince Albert	Monday, Nov 19	6pm	PA Inn
Hall Lake	Tuesday, Nov 20	5pm	Community Hall
Little Red River	Friday, Nov 23	12pm	Band Hall

Land Code Activities Update

An Environment Site Assessment, to determine the environmental health/condition of LLRIBs reserve lands prior to LLRIB taking back jurisdiction and control of its reserve lands, is being conducted. Site surveys were completed in October. The final report should be done in January 2019.

The Land Description Report, which will accurately define the boundaries of LLRIB and describe the extent of reserve land to be managed, is being produced. There will be new boundary surveys conducted in Kitsakie (156B), Little Hills (158 and 158A), Fox Point (157 E and 157 D), Sucker River (156C), and Four Portages (157C) starting early November.

The first draft of the Land Code and other informational resources are on LLRIB's Land Code website below:
